THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 28, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. The city of Troyan (N4253 E2443) has about 13,000 inhabitants and covers an area approximately 1000 by 2000 meters. Since 1944 it has been developing into an important industrial center and in the post-war period an electric motor and manufacturing plant, a machine factory, and a cotton textile mill have all been newly-constructed and put into operation there.
2. A plan of the city of Troyan [redacted] containing the locations of the following public and industrial buildings, is contained on page 3 of this report:
1. The Deveti Septemvriy Cotton Textile Mill, housed in a 1-story building, 100 by 50 meters, employing about 100 women who work in three shifts;
 2. The Pürvi May Cotton Textile Mill, housed in a 1-story building, 100 by 50 meters, employing about 100 women who work in three shifts;
 3. Flour Mill;
 4. Militia Headquarters, housed in a 2-story building, about 50 by 100 meters; the first floor and other parts of the same building are used as a privately-owned flour mill;
 5. Railroad Station;

-2-

6. Trojan People's Council, housed in the Trojan Municipality Building which faces Nine Septemvriy Square; it is a 2-story building made of stone with a roof covered with stone rather than tile; it measures 20 by 20 meters;
 7. Post Office;
 8. City Park;
 9. Cinema;
 10. State Security Headquarters, housed in a 2-story brick building measuring 20 by 50 meters; the State Security does not occupy the whole building which also contains some shops and a cinema;
 11. City Baths;
 12. The Elprom Electric Motor Plant, a state-owned factory housed in a 2-story building, about 90 by 30 meters; it went into operation in the autumn of 1949; the labor force consists of about 100 workers who work in three shifts;
 13. The Mashstroy Machine Factory, a state-owned factory housed in a 2-story building, about 90 by 35 meters; it employs about 100 people who work in three shifts and produces planing machines, drills, lathes, and other machines used in carpentry; it went into operation in 1949;
 14. Pottery School;
 15. The Khamus Shoe Mold Factory, housed in a 1-story building, about 50 by 12 meters; it has three workshops where shoe molds, chairs, and furniture are made; each workshop employs 60 workers who work in three shifts;
 16. Knitting Factory, housed in a 2-story building, 50 by 100 meters, employs about 50 women; it manufactures goods such as stockings and underwear;
 17. Enamel Factory, housed in a 1-story building, 30 by 20 meters, employs about 25 workers and produces articles such as enamel pots and plates;
 18. Plywood Factory, housed in a 1-story building, 90 by 50 meters, employs more than 100 workers and produces only plywood;
 19. Tanneries; there are a number of small tanneries situated on the bank of the Osem River; these belong to the cooperative (sic);
 20. City Hospital; and
 21. Bridge over the Trojan River, 30 meters long.
3. Trojan receives its electrical current from a hydroelectric power plant located in the Osem River valley, east of the point where the Trojan-Lovech rail artery crosses the Osem River and about 1,000 to 1,500 meters north of the Dalbok Dol Railroad Station (N4258 E2439) which is about 15 kilometers north of Trojan. This is an old power plant.
